| Relevance                   | The key performance indicators for safety, environment, capacity and cost-efficiency are used to set performance targets at Union level and national levels. The key performance indicators cover both <i>en route</i> and terminal air navigation services, as well as network functions, in order to improve the overall performance of the network.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| Timeliness                  | The basic aggregated data are disseminated in year t+1. The monthly data is published each month - in general between 14 and 16 days after the end of the month in question.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
